## Attendance

We know how much you want the very best for your children, and one of the simplest ways to support their learning is through good attendance. Being in school every day helps them stay confident, connected, and ready to make the most of every lesson. We've sent home the new term dates to help with planning—please do take a moment to pop them on the fridge or in your calendar. Thank you for your continued support in helping our children thrive!

Well done to those children achieving the Headteachers award, star of the week or values in action certificate. Thank you and well done to those children who shared home achievements with us.

## Parents multiplication meeting - Tuesday 27<sup>th</sup> January - 3.30pm

At school, we are working hard to strengthen our children's knowledge and confidence in multiplication. Times tables play a vital role in many areas of maths, and building quick, secure recall helps children succeed as they move through the curriculum.

To support this, we would like to invite Year 2, 3 and 4 parents, into school for an information meeting.

During the session, we will share:

- How we teach multiplication across the school.
- Practical ways you can support your child at home.
- Important information about the Year 4 Multiplication Tables Check

**Number Day - Friday 6<sup>th</sup> February** - children may dress up as Rock Stars ready for their TT Rock Star Multiplication challenges.

Our worship theme is Belief this term. We have asked, "What does it mean to believe in something/someone?"

Prayer - "Lord, help us to trust You and believe in Your promises, even when the path ahead is unclear."
